

Alstom supports the victims of the flooding in Kazakhstan

- **Donation to the public fund “Qazastanhalkyna” that works to provide direct solutions to families affected by the emergency**
- **Support with clothes by employees to people suffered from flood**

May 3, 2024 - The Alstom Foundation has announced that it has made a donation to support those affected by the recent flooding in Kazakhstan through a contribution to the public fund “Qazastanhalkyna”.

Qazastanhalkyna is a Public Fund working to help people in need in emergency situations and socially vulnerable groups of the country. During the flood, the Fund has declared to build houses to people affected by it. As of now, the Fund has concluded the memorandums with state bodies in 3 regions of Kazakhstan to build 314 houses.

As an additional contribution, Alstom employees in Astana also donated clothes to the charitable fund “Istoki dobra” with the aim of providing assistance to those in need who have been impacted in Northern Kazakhstan.

“The flooding has had a tragic effect on many families in Kazakhstan. Our team stands in solidarity with those who are currently facing challenging circumstances and it is our utmost commitment to support them. Together, as a community, we are stronger and we will overcome this difficult situation”, says Aizhan Aldabergenova, Communications Director and Corporate Social Responsibility Leader in Western and Central Asia.

About Alstom in Kazakhstan

Alstom is present in the country since 2010 and has established a significant industrial base with over 1,000 employees working to address national mobility’s needs and the revitalisation of the country’s rail industry. Alstom is the only manufacturer of electric locomotives and point machines in the Central Asian and Caucasian region. Today, Alstom’s footprint spans across 11 sites in 6 cities throughout the country: two plants: Electric Locomotive Assembly Plant (EKZ) in Astana for the production of electric locomotives and JV KazElectroPrivod (KEP) in Almaty for the production of point machines; four service depots to maintain locomotives in Astana, Almaty, Arys and Shu, two troubleshooting areas located in Tobol and Ekibastuz. Repair centre, Bogie centre and Corporate office are located in Astana.
